Comments: _____

By applying you are accepting and agreeing to all the terms and conditions with the permitting process, and the holder certifies that he/she is familiar with all New Hampshire traffic, motor vehicle, and other laws, requirements, and rules governing a move including, but not limited to, time, date, and location, as well as size of load, and will be in full compliance during movement. The applicant agrees that all dimensions and weights applied for are true and correct and that a permit does not allow the permit holder to cross any load posted bridges without prior review, as well as exceed manufacturers' Gross Combined Weight Rating (GCWR) or Gross Vehicle Weight Rating (GVWR), axle capacities, or tire capacities on any portion of the permitted equipment. If the applicant crosses any load posted bridges without prior review or the load on any portion of the permitted equipment exceeds any of these manufacturers' criteria, the permit shall be null and void. The applicant agrees to move at own risk and assume all responsibility for injury to persons or damage to public or private property caused directly or indirectly by the transportation of the vehicle or load under the permit. (rev. 03/09)

**SUMMARY OF LEGAL DIMENSIONS AND GROSS WEIGHTS
STATE OF NEW HAMPSHIRE
INCLUDING FEE INFORMATION FOR OVERSIZE/OVERWEIGHT PERMITS**

* Distance in feet between the extremes of any group of 2 or more consecutive axles.

** Distance in feet between the extremes of 4 axles. (2 sets of 2 axles)

*** The distance in feet noted is that between extreme axles, excluding the steering axle.

Permit authorizes travel only during **DAYLIGHT HOURS** on only those highways and bridges over which the New Hampshire Department of Transportation has jurisdiction. The permittee assumes all responsibility for any damage to highways and bridges, agrees to keep all other traffic off bridges while crossing same.

ESCORT: One (1) pilot car, provided by the applicant required for all overall width loads at twelve (12) feet, zero (0) inches or more or overall length loads at eighty (80) feet, zero (0) inches or more. The pilot car precedes load on all but four lane divided highways and shall display a sign for approaching traffic reading **OVERSIZE LOAD**. This sign shall have ten inch high black letters of a one inch stroke on a yellow background. Pilot cars drive with headlights on low beam and will be equipped with flashing amber light.
